Corrigendum No.3
Procurement of Equipment for the 2011 BiH Census
Tender No: EC/BIH/10/003; EuropeAid/129581/C/SUP/BA

Following changes in **Annex II, Technical Specifications** and **Annex III, Technical offer** have been made, as listed below:

LOT 1 – ICT INFRASTRUCTURE (HARDWARE AND SOFTWARE)

For Item 1.1 Blade chassis; requirement: Type: Rack-mount chassis 9U, support minimum 14 blade bays, the following text is added:

It is acceptable to offer rack 10U mount chassis support minimum 14 blade bays.
However, an additional purchase of equipment in the future to meet the required conditions in the case of adding 6 more blade servers is not acceptable.

For Item 1.9. UPS
The following text is DELETED and is not part of the document.
"UPS must be produced by the manufacturer of server."

Item's description (column Specifications required) SHALL READ:
"Type: Uninterruptible Power Supply 5000HV."

For Item 1.4 Storage Type 1 and Item 1.6 Storage Type 2, requirement "Management software (Storage Manager, the newest version), the following text is added:

It is acceptable to offer a version of storage manager for adequate storage and the storage manager has to meet the required conditions.

For Item number 1.5 Backup, restore and replication appliance, requirement Connection "Dual Port 1Gb Ethernet Daughter Card", the following text is added:

It is acceptable to offer compatible dual port Ethernet card with offered servers that meet the required conditions.

Item 1.8 RACK 42U
The following text is DELETED and is not part of the documentation:
„Rack must be produced by the manufacturer of the server "

Item's description (column Specifications required) SHALL READ:
"Blade chassis and Storage will be installed in every 42" RACK. Rack must have KVM switch and 17'' slide-in TFT monitor 1U, mouse and localized keyboard. "

Item 1.9 UPS
The following text is DELETED and is not part of the documentation.
"UPS must be produced by the manufacturer of server."

Item's description (column Specifications required) SHALL READ:
"Type: Uninterruptible Power Supply 5000HV."

For Item number 2.1 Notebook Type 1
The following text is added to requirement for display type model and resolution is WXGA+ TFT 1440 x 900:
It is acceptable to offer LED type of display and better resolution.

The following text is added to requirement for keyboard specification list asks for integrated backlight:
It is acceptable to offer keyboard without backlight.

The following text is added to requirement for fingerprint reader you write LED indication:
It is acceptable to offer fingerprint reader without LED indications

For Item number 2.2 Notebook Type 2
The following text is added to requirement for Ports and Slots:
Requested number of USB ports for Item 2.2. is min. 3

For Item number 2.2 Notebook Type 2
The following text is added to requirement for keyboard specification that asks for integrated backlight:
It is acceptable to offer keyboard without backlight

Item 3.1. Desktop Computer Type 1; Monitor type: LCD 22"/55.9cm, Dynamic Contrast 12000:1, Brightness 300 cd/m2, Viewing angle: 160°(H)/160°(V), Response time 5 ms, Resolution 1680x1050; TCO'06 compliance, VGA-DVI, 1xUSB 2.0; from same manufacturer like computer

The following text is added to requirement for monitor specification:
It is acceptable to offer improved LED monitors. Minimum for typical contrast is 1000:1

Item 4.7. Software for automated solution for failover of virtual environments to a recovery site (per processor)

The following text is added: *It is acceptable to offer software for automated solution for failover of virtual environments to a recovery site based on per virtual machine licensing model. Each bidder shall offer minimum 4 licenses and each of those licenses should include possibility to deploy 25 Virtual Machines.*

LOT 2 – DATA CAPTURE PLATFORM (HARDWARE AND SOFTWARE)

Item 1. Data capture platform – OCR/ICR Software

The following text is DELETED and IS NOT part of the documentation.
g) "All modules must have its own properties/events associated with it. The run time event of each module should contain at least:
Onldle, OnLogin, OnLogout, OnTimer, OnFunctionKey, OnPrePutCollections, OnPostPutCollections, OnPreDiscardCollections, OnPostDiscardCollections, OnPreSaveCollections, OnPostSaveCollections, OnPreDeleteCollections, OnPostDeleteCollections"

And it has been REPLACED with the NEW REQUIREMENT:
g) „Solution shall have possibility to customize each module to make some customized steps: Like presenting a username/password screen to a user when he/she opens a module (On login event), to impute missing values after recognition stage (OnPrePutCollections).“

Item 1. Data capture platform – OCR/ICR Software

The following text is DELETED and IS NOT part of the documentation.
"References: Certificate(s) confirming that in the last 10 years the offered software solution has been used in at least 3 national censuses, with scanned min 25.000.000 documents in each census ".

All other terms and conditions of the Tender Dossier as amended by the Corrigendum No. 1 and Corrigendum No.2 remain unchanged.
