Delegation of the European Union to Bosnia and Herzegovina

### **Clarification No. 1**

Project Title: **"Supply of Backlog Reduction Licences and Equipment"**

Publication reference: **EuropeAid/132-986/L/SUP/BA**

Tender No: **EC/BiH/TEN/11/025**

#### **Item 1, 2, 3:**

**Question 1:** Is it acceptable to offer a device that has a VGA port on the back side with respect to solicit support for 16 hot-plug drives?

**Answer 1:** No, it is not acceptable. There must be 2 VGA ports (1 in the front and 1 at rear side of the server) as specified in the technical specification.

**Question 2:** Is it acceptable to offer an external DVD-RW because it seeks a chassis that supports 16 hard disk size 2U?

**Answer 2:** See Corrigendum No.1.

**Question 3:** Is it acceptable to offer a device with LEDs on the front side diagnosed: the status of the fault system, device identification, access to hard disks and power supply?

**Answer 3:** Yes, it is acceptable to offer a device with LEDs on the front side diagnosed: the status of the fault system, device identification, access to hard disks and power supply.

**Question 4:** Is it acceptable to offer servers in 2U enclosures, which have 16 places for 2.5" drives to each server and external USB DVD-RW drive that requires no additional power?

**Answer 4:** See Corrigendum No.1

**Question 5:** According to specification: 1.3 Database Server "Fiber-Optic Host Bus Adapter SAS 6 Gb"

Do you mean 8Gb fiber-optic or 6Gb SAS host bus adapter?

**Answer 5:** See Corrigendum No.1.
