Delegation of the European Union to Bosnia and Herzegovina

Clarification No. 2 to Service Contract Notice

Project Title: Provision of designs for 3 high scale energy efficiency projects, Bosnia and Herzegovina
Publication reference: Europeaid/134634/C/SER/BA
Tender No: EC/BiH/TEN/13/029

Question 1: Can “facility” be also understood as a “framework investment support program” integrating a large number of projects for EE and RES in HVAC and buildings?

Answer 1: No. "Facility" is understood as a single facility, being a single building or a single system.

Question 2: Please explain why the investment threshold 10 M€ applies to each individual reference project or modify the requirement?

Answer 2: This criterion is based on the assessed value of works to be subject to delivered designs and the complexity of the assignment, as determined in the ToR.

The criterion remains unchanged.
