Clarification No 2 to the Service Contract Notice

Project Title: Provision of preliminary designs and studies for removing the railway traffic bottleneck occurring at Ivan-Bradina
Publication reference: EuropeAid/ 135144/DH/SER/BA; EC/BiH/TEN/13/050

Question 1:

Regarding the Procurement Notice EuropeAid/135144/DH/SER/BA, could you please clarify the following selection criteria?

3) Technical capacity of candidate (based on items 5 and 6 of the application form):

"... Proportion carried out by legal entity in preparation of the conceptual/preliminary and/or main designs of the specific railway sections shall be at least 60 %."

Namely, the 60% threshold refers to the total budget of the corresponding project reference, or to the part of the project that deals with the preparation of the designs, considering that some of the projects also have construction and other related activities under one contract.

Answer 1:

The 60% threshold refers to the part of the project that deals with the preparation of the conceptual/preliminary and/or main designs of the specific railway sections, excluding construction and other related activities under one contract.
