OBRAZLOZENJE PROJEKTA

1. SOCIOEKONOMSKI UTICAJ

Predmetna lokacija se nalazi uz put Prusac Koscani. Predmetna lokacija prije rata se koristila za ispasu stoke, manjim dijelom za poljoprivredu i obradu zemljišta. Uz predmetnu lokaciju prolazi put koji spaja naselja Livopoljci Vasici, prema Jandricima i Djuricima. U neposrednoj blizini predmetne lokacije nalazi se lovacki dom koji se koristi od strane lovaca i planinara. Otklanjanjem minske opasnosti sa predmetne lokacije stvorilo bi se sigurno okruzenje za ljude koji se bave ispasom stoke na platou Koscani, za lovce, planinare i izletnike koji posjecuju lovacki dom i omogucila bi se sigurna eksploatacija sume i snabdijevanje ogrevnim drvetom lokalnog stanovnistva.

PROJECT DESCRIPTION

1. SOCIOECONOMIC IMPACT:

Subject location is by the road Prusac Koscani. Before the war this location was used for cattle grazing, to a lesser extent for agriculture and cultivating of land. There is a road that connects settlements Livopoljci Vasici towards Jandrici and Djurici. In the immediate vicinity of the subject location there is a hunting house used by hunters and mountaineers. Removal of mine danger would create a safe environment for people dealing with cattle grazing on the plateau Koscani, for hunters, mountaineers and day trippers who visit the hunting house and would also enable secure exploitation of forests and supply of firewood for local population.

Number of directly impacted persons and occasional users: **150**

Number of users after project implementation: **100**

2. PRIORITISATION:
