OBRAZLOZENJE PROJEKTA

1. SOCIOEKONOMSKI UTICAJ

Predmetna lokacija se nalazi izmedju sela Goles, Trebeusa i Bijelo Bucje, u neposrednoj blizini sela Goles. U prijeratnom periodu lokacija se vecim dijelom koristila u poljoprivredne svrhe (oranje, za kosenje trave i ispasu stoke), a manjim dijelom za eksploataciju sume. Kroz predmetnu lokaciju prolazi put koji je povezivao sela Goles i Trebeusa. U Mjesnu zajednicu Goles vratilo se oko 70% u ratu raseljenog stanovnistva. Ciscenjem predmetne lokacije stvorilo bi se sigurno okruzenje za povratnike u mjesne zajednice Goles, Trebeusa i Bijelo Bucje, te omogucila obnova i korištenje puta Goles-Trebeusa, cime bi se podstaklo ostalo raseljeno stanovnistvo na povratak i omogucilo korištenje zemljista od strane vlasnika. Otklanjanje minske opasnosti imalo bi veliki znacaj za kompletno stanovnistvo regije Turbe i opstine Travnik.

Broj neposredno ugrozenih osoba i povremenih korisnika:	250
Broj korisnika nakon realizacije projekta:	350

PROJECT DESCRIPTION

1. SOCIOECONOMIC IMPACT:

The subject location is between the villages Goles, Trabeusa and Bijelo Bucje, in immediate vicinity of the village Goles. Before the war, the location had been mostly used for agricultural purposes (crop fields, grass, pastures), and to a limited extent for exploitation of forests. A road connecting vilages Goles and Trabeusa run through the location. Around 70% of the war-displaced population have returned to the local community Goles. Mine clearance of the subject location would provide safe environment for the returnees to local communities Goles, Trabeusa and Bijelo Bucje and allow reconstruction and use of the road Goles-Trabeusa, thus encouraging the still displaced population to return and to land owners to use their land. Removal of mine threat would have significant impact on the overall population of the Turbe region and municipality Travnik.

Number of directly impacted persons and occasional users: **250**

Number of users after project implementation: **350**

2. PRIORITISATION:

THREAT LEVEL

H - HIGH

There are indications of PROM mines on the location. Indications mean that are for location available data on mine incidents/accidents, minefield records or reliable witnesses

LEVEL OF USE: **I**

CRITERIA

H.1.4 - ECONOMIC RESOURCES
